### Note :

- Size / shade variation is inherent in porcelain tiles , in case of any complain its should be brought to our dealer's notice before laying the tiles.
- Colour shown are indicative only. Check actual tiles for exact colour.
- The information contained in this catalogue are accurate as possible, but cannot be considered as legally binding.
- Customers are advised to inspect a sample of the tile before ordering.
- The company reserves the right to change the specifications without prior notice.

## TILE FIXING INSTRUCTIONS

It is necessary to use an appropriate adhesive and grouting material for each product An initial approach must be made before starting the installation and take into account the type of joint, structural, perimeter, expansion and installation that must be used for each use. We advise that to obtain an optimal result a 1.5 mm joint should be used.

Once the placement is finished: it is recommended to remove the remains of adhesive material and specific grouting for each material, following the manufacturer's instructions for these products.

### Exterior Elevation or interior Walls & Floors

In general, powder detergents and aggressive scouring pads should not be used for cleaning. It is enough to clean the tiles with a sponge, warm water and a neutral liquid soap. Finally, rinse with clean water.
